

ANTARCTIC RECORD No. 27

CONTENTS

Report of the Japanese summer parties in Dry Valleys, Victoria Land, 1963–1965. 1. On the evaporites found in Miers Valley, Victoria Land, Antarctica.....	<i>Tetsuya Torii, Sadao Murata, Yoshio Yoshida, Jōyō Ossaka and Noboru Yamagata</i>	1
Diatoms from Molodezhnaya Station and Mirny Station, Antarctica.	<i>Hiroshi Fukushima</i>	13
Oceanographic Observations of the 7th Japanese Antarctic Research Expedition 1965–66.	<i>Sadakiyo Hori, Masaru Shiozaki and Tsutomu Akiyama</i>	18
Report of the 7th Japanese Antarctic Research Expedition 1965–66.	<i>Masayoshi Murayama</i>	45
Reports read at the Symposium on Polar Oceanography		
Introduction.....	<i>Yasuo Miyake</i>	68
On the water masses of the southern ocean in the section between Queen Maud Land and South Africa.	<i>Sadakiyo Hori</i>	69
Critical review of the marine geological results around the Syowa Station obtained during the first series of the Japanese Antarctic Research Expeditions.	<i>Takayasu Uchio</i>	78
On the nutrient salts of the southern ocean in the section between Queen Maud Land and South Africa.	<i>Masaru Shiozaki</i>	88
Research of sea ice in polar oceanography.	<i>Kōu Kusunoki</i>	98
The plankton ice as basic factor of the primary production in the Antarctic Ocean.....	<i>Hiroshi Fukushima and Hiroshi Meguro</i>	99
A preliminary report on geochemistry of the Antarctic Ocean and adjacent seas.	<i>Tsutomu Akiyama</i>	102
